### Principal's Message

My congratulations to the creative students who have worked so hard to produce an outstanding yearbook. The result of your talents is a lasting memory of the school year 1999-2000.

This has been an incredible school year at Westview! It is an honour to be the Principal of Westview Centennial Secondary School and to work with such a strong group of students. We have watched our CISCO networking academy, Production Publishing, the greenhouse, Writers in Electronic Residence, the Virtual Classroom and the Centre for Change spring to life at Westview. We have continued to work hard to introduce new Secondary School Curriculum to our grade nine students as well as maintaining outstanding opportunities for all young people at Westview in our academic and co-curricular programs.

On behalf of the administrative team, Mr. Hall, Ms. Palermo, Mr. Henkle and Mr. Mayeda, I extend my best wishes to the graduates of Westview and the many contributions they have made to creating a rich school life.

Congratulations to all on another fine year!

## A BEAUTIFUL PAIN

Strange but real  
A glimpse of a night  
Flashes of a beautiful rose  
Strange to your heart  
To love the beauty  
Is loving a stranger  
Painful, joyful but special  
You know it's a mistake to love a blue  
But you did because  
It's the beauty of the blue  
That swept you of your feet  
A feelings that cannot be fought  
To love a beauty is a beautiful pain  
A pain in the heart  
That hurts so much it makes you cry  
In your heart it feels so right to love a blue  
To love a stranger is  
A beautiful pain

YOU SHOULD HAVE LISTENED THE FIRST TIME !!

To the office  
NOW !!

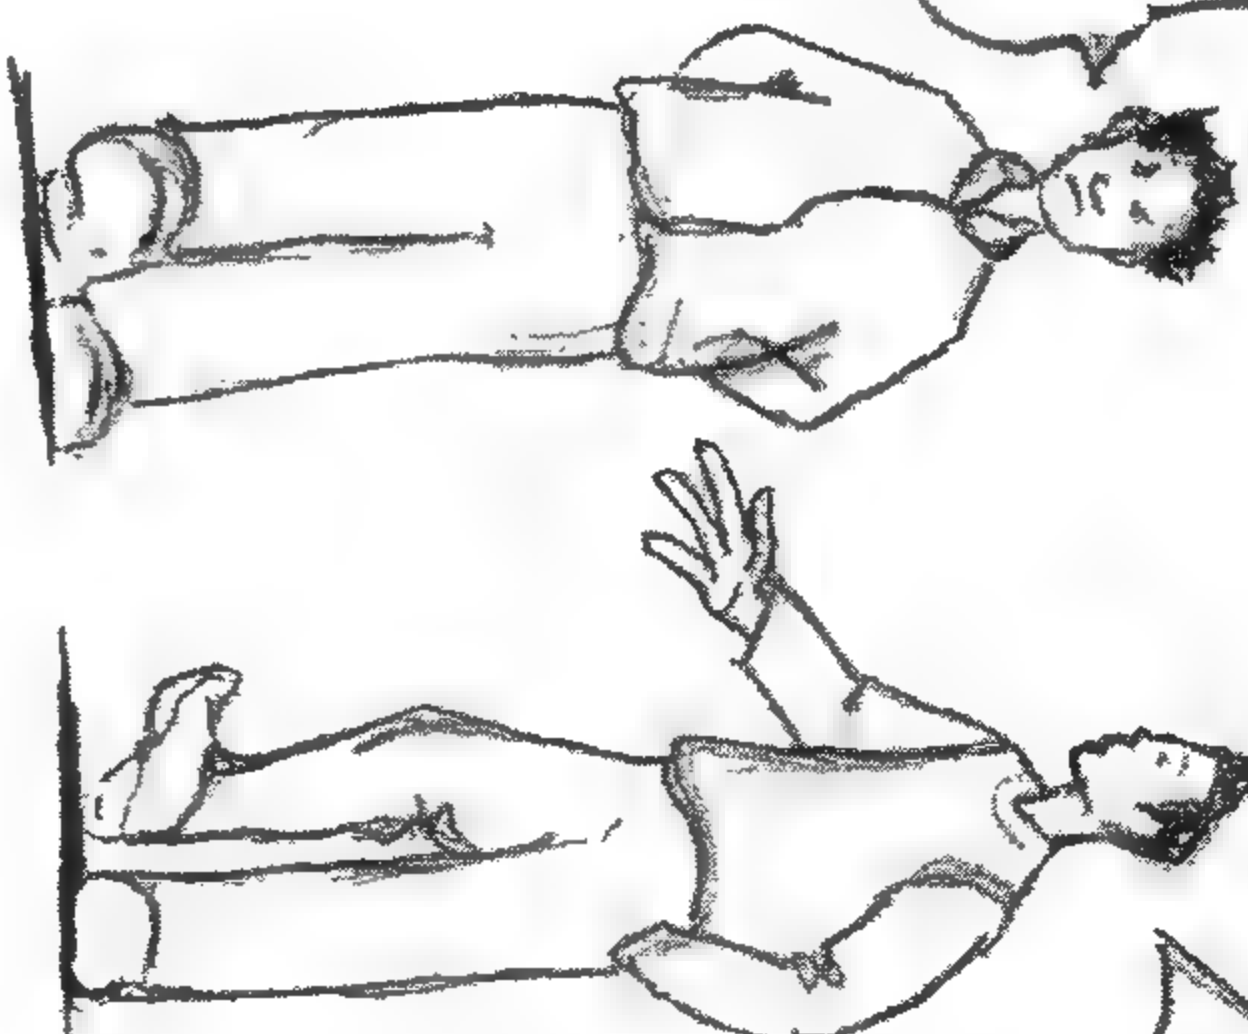

Hey man,  
Tell me what's so  
special about wearing  
a hat. You won't be  
respected in school  
or in public. You  
are in school so  
act like a  
student

I can't  
believe I got  
suspended  
for 3 days

for  
wearing  
a hat

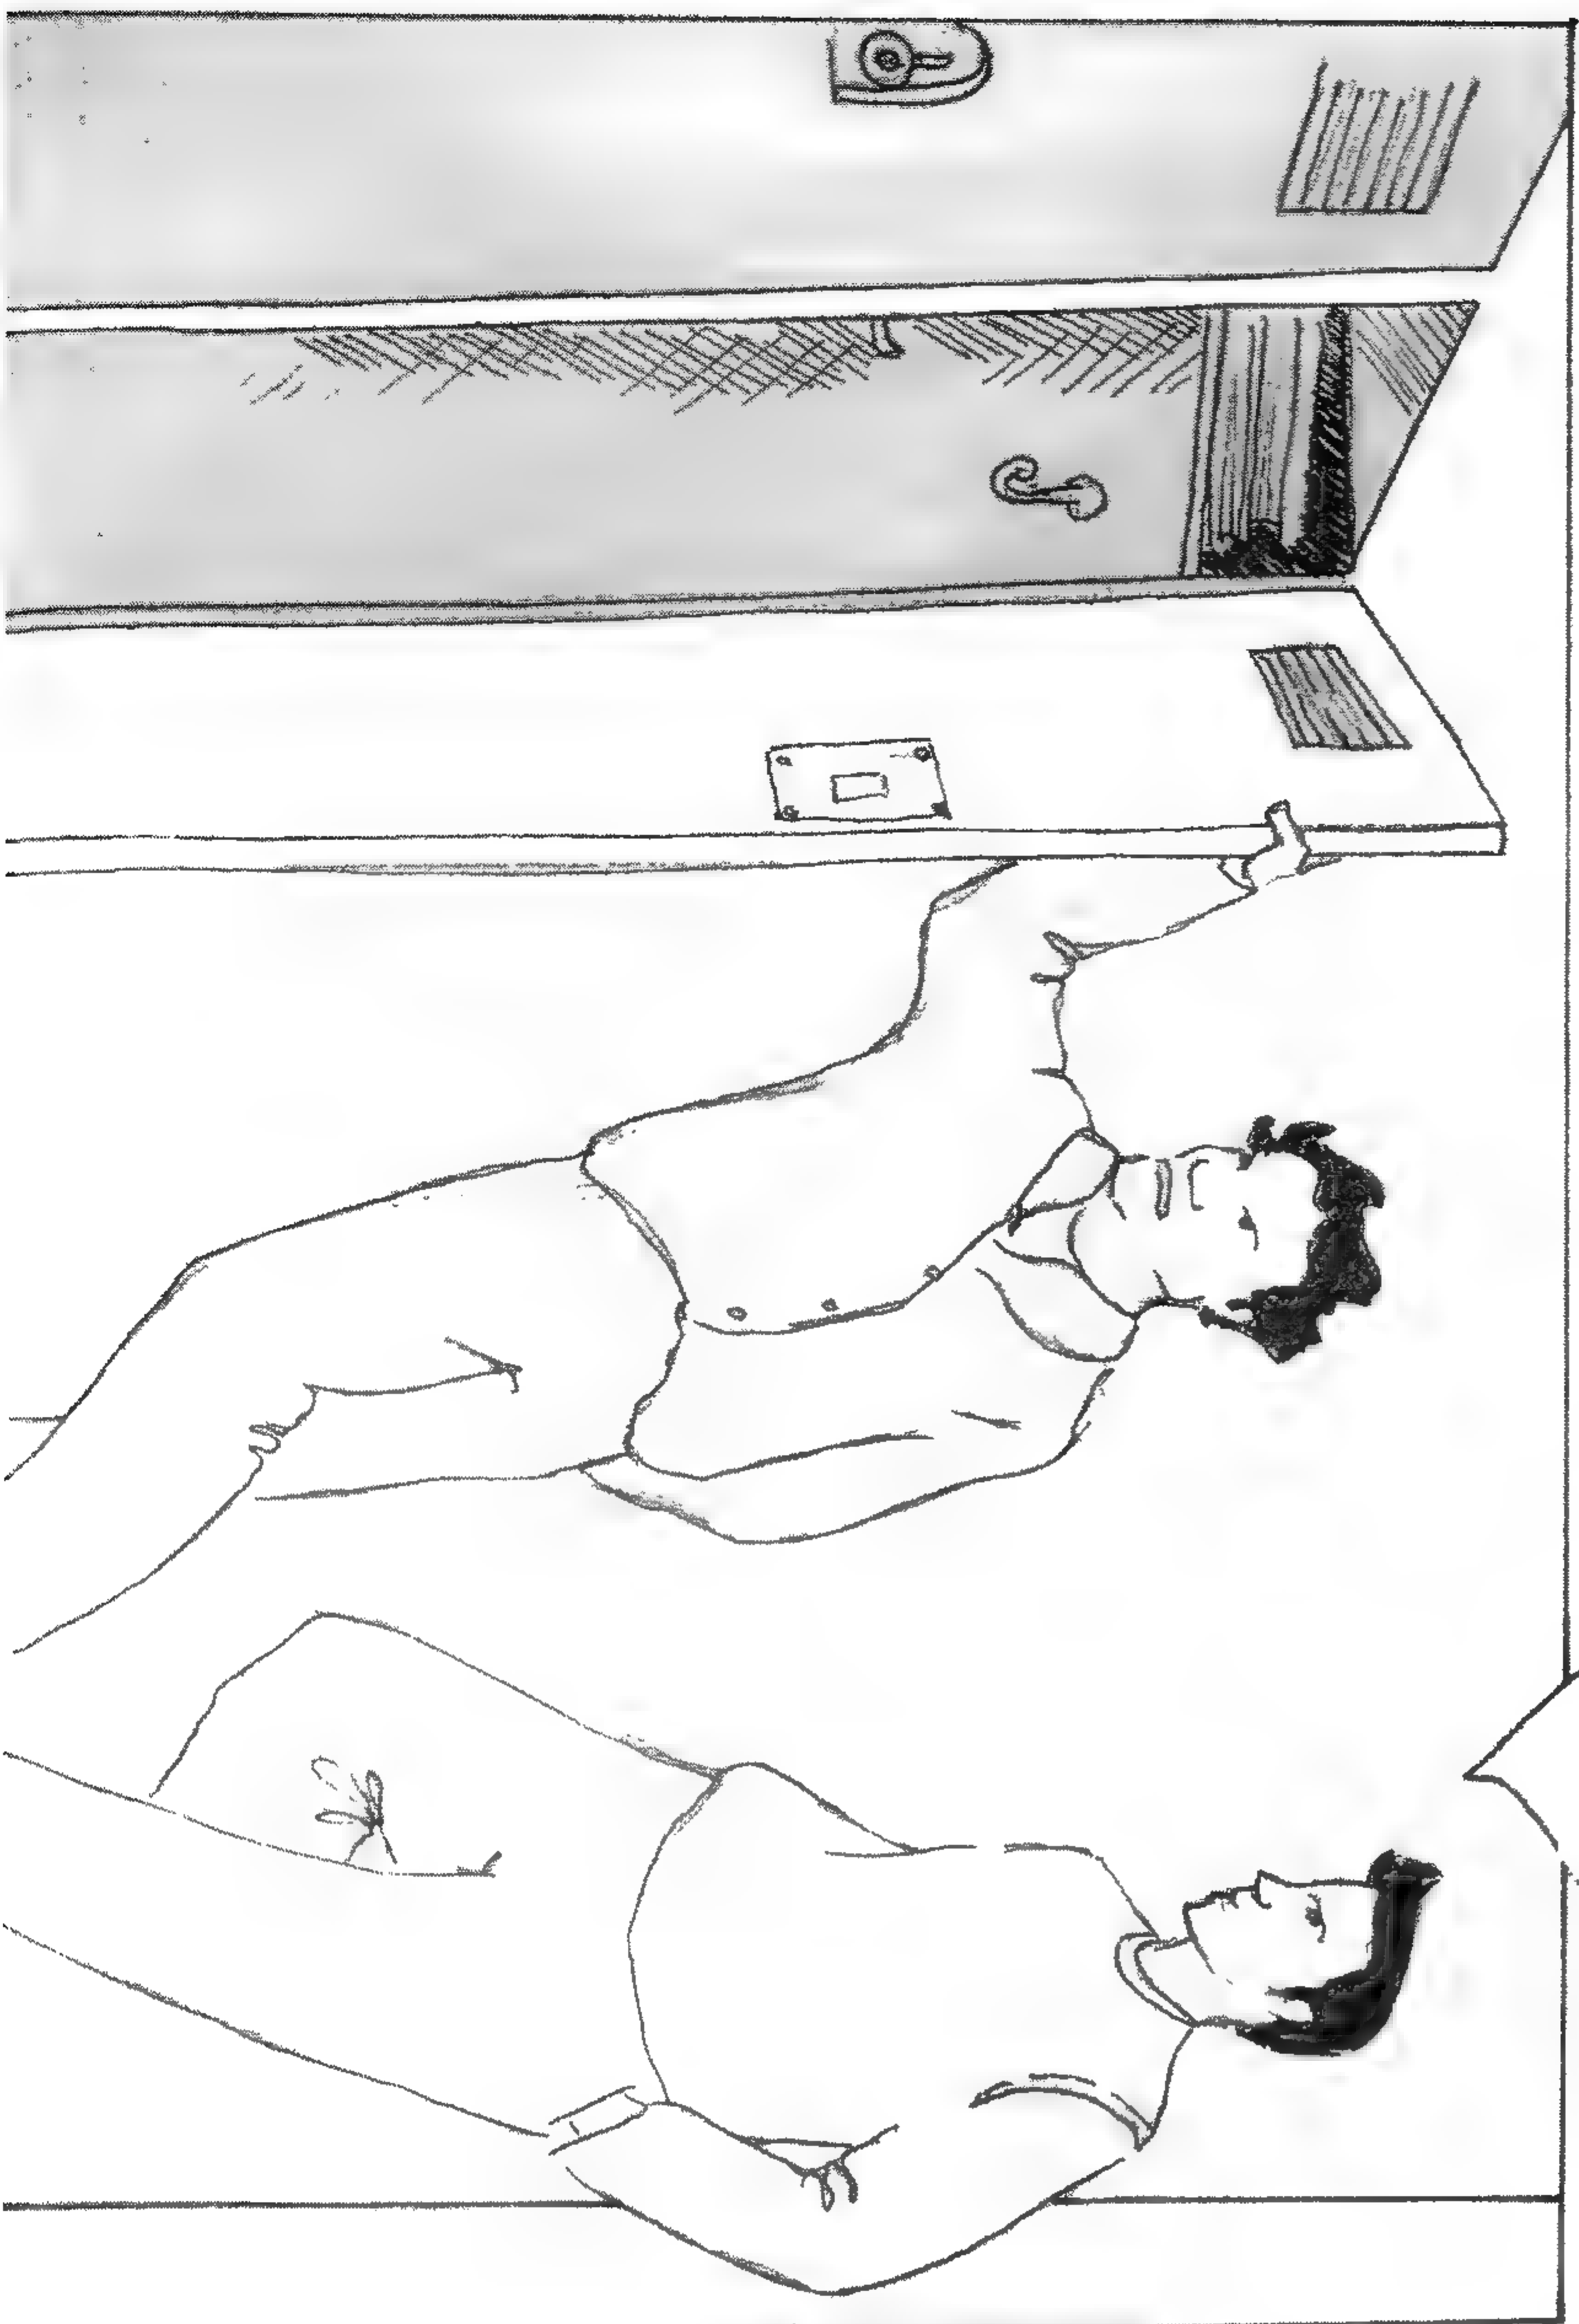

You what!!!  
Suspended for  
WHAT!!

Oh because  
I have a  
bad hair day.

So  
why did  
you wear  
a HAT!!

Oh  
be  
Quiet

## *Remember Now*

*Forget the way you two just met  
Forget the smile on his face  
Forget each word he said to you  
Remember now he's never true*

*Forget the love you once shared  
Forget the fact that he once cared  
Forget the time you spent together  
Remember now he's gone forever*

*Forget you cried that whole night  
long  
Foget him when they played your  
song  
Forget how close you were  
Remember now he's with her*

*Forget his name, for get his face  
Forget his kiss and his warm  
embrace  
Forget the love that once was true  
Remember now there's someone  
new*

## **I Wonder**

All I do is think of you.  
Wondering if you are true.  
I wonder if you've found someone  
new,  
Because, when I say "I love you"  
I wonder if you love me too.  
I pray to God, if I can see,  
If you really, truly, do love me.  
The nights that you are gone  
I wonder who you're hugging on  
I wonder if there's someone new  
Because I really, truly do love you  
I have noticed something strange  
But I just wonder if it will change.  
I love you baby,  
Can't you see?  
Why can't you say that,  
You do love me?  
I wonder?

When you love a woman:

When you love a woman  
Nothing else in the world matters  
When you love a woman  
You will go around the seven seas  
Just to find yourself helpless in her arms

When you love a woman  
You will stand in the rain from dust till dawn  
If she says that's right

When you love a woman  
You will trash your life long dreams  
Just to catch the glimpse of the perfume  
that lies deep in your heart  
To smell the roses of her heart

When you love a woman  
You are like a baby in its mother's womb  
Under her spell, helpless, blind,  
And senseless in the eyes to the world  
But meaningful and special in your world

When you love a woman  
You will go through hell  
Just to find out it was a dream  
But real

## POETRY

### OCEAN OF TEARS

*There are things you can never understand  
Of my Love that has no cure.  
No, you will never see this  
Nor will you see me cry  
I tried but you just didn't get  
The intense thoughts I carry inside  
You barely listened and broke my heart  
I know when I've been denied  
No never again you will see my tears  
Or know the pain you brought  
I won't give you the satisfaction  
Of knowing you're in my thoughts  
I guess we weren't meant to be  
Cause all that is left is an Ocean of tears.*

Arooj

### War

There are few of our men left in the native land  
The aftermath of the hollipic war are few casualties  
Our lives are wanting in the foreign land  
Lions are roaring in the virgin foreign forest for their prey  
The green forages and pastures have been trampled  
And overgrazed by hooves  
Our mighty rivers are flooding blood  
Man is delinquent, but the unknowns are now the heroes  
The great pyramids of Egypt are swept away by the Mediterranean  
The only peaceful place is perhaps the Sahara  
King Duncan's old balcony is desolate place  
Full of bones and skeletons  
Crabs and Lobsters thirst in the deep ocean  
Man's next hope is to plant his crops in tears, and reap in sorrow.

Maybe It's A Dream Or Maybe It's Real  
But I'm Burning Inside For The One In Mind

I always thought about what it would be like  
To actually touch the person that I have in mind  
She must be soft and tender with a sweet little smile  
She must also have good taste in styles

She must be the light that makes the place bright  
She could even be the stars that shines in the night  
She must be humble like bees in a tree  
For she is the one the only one for me

I only want to meet her to see if she's real  
For she probably exists and is looking for me  
She must have great personalities  
And fulfil most of my needs  
I'm unhappy cause she's not with me

My love for her grows stronger every minute  
At ages three and four I wasn't very sure  
But now I'm older and I know it's true  
For my love for her is out of this world

No one knows what I feel inside  
They only assume, based on what they see on the outside  
I wish that someone would say that the fantasy is true  
For she is the one, the only one for you

She shows that she is peaceful and kind  
But she could be thinking otherwise inside  
She could tell, but she don't want anyone to know  
I could listen, but I might have to find it out on my own

My love is out there; my fantasy is true  
She may be searching, while I'm searching too  
One day I'll prove that one and one makes two  
When I present my love to you

You may not believe me  
But patience is virtue  
I will show you my love  
So beautiful she will knock you off your shoes

## ONCE MORE

*Another school year has come to an end once more,  
It's now time to close these doors.  
The echoes of countless voices loud and clear  
Will all soon, not be here.*

*For another year has passed us by,  
Memories of our friends, we cannot deny.  
Teachers and students had come together,  
In order to make this part of our life a treasure.*

*The laughter and joy that Westview had brought  
Will forever be deep within our hearts.  
All these years and all those days,  
Will be in our hearts, sure to stay*

*It's hard to say these good byes today,  
For we do not know which path leads our way.  
Nevertheless, good byes are a must,  
So take care my friends, and best of luck  
Till once again our paths will cross.*

*Good bye Westview, and thanks for all you had given  
us...*

# HOROSCOPES

Aries (March 21 - April 19)

An older friend will avoid you today. Have you considered using any of the vast number of breath-freshening products that are available, these days?

Taurus (April 20 - May 20)

I see you making a special trip to the store today, to get something. It's in a sort of yellowish little box, about the size of a toothpaste box, I think. It's "prep-something"? Ah! "Preparation"-something, I think. Oh. Ahem. Anyway, if it's any consolation, I hear that Jet Fighter pilots have that problem much worse than most people. All that acceleration, you know. Don't worry -- your secret is safe with me!

Gemini (May 21 - June 20)

Nobody knows the trouble you've seen. Except for Bob, that is. You know - the quiet neighbor, with the binoculars?

Cancer (June 21 - July 22)

Someone you don't like will make repeated attempts to talk to you today. The best way to handle this is to stuff extremely crunchy food in your mouth during each attempt, and then mumble "What?" while looking at something slightly over their left shoulder.

Leo (July 23 - August 22)

Good day to begin writing that book you've been planning -- "Growing Radishes Indoors". It's an idea whose time has come.

Virgo (August 23 - September 22)

You will get together with several friends, and start an extremely exclusive club. Mostly, this will just be so you can have your own secret handshake, of course.

Libra (September 23 - October 22)

You will find an alien artifact behind the cushion in the sofa. Point the pointy end away from you, if you push the little bumpy thing. Personally, I'd just leave it alone.

Scorpio (October 23 - November 21)

Today you will finally get around to exercising! Your cat will look at you like you've gone completely whacky. Don't be intimidated, though -- at least you never get distracted and forget that you're holding your leg up behind your head.

Sagittarius (November 22 - December 21)

Remember: people who live in glass houses shouldn't throw stones. It's ok to throw mashed potatoes, however.

Capricorn (December 22 - January 20)

While channel-surfing by remote control, you will accidentally happen upon a secret US government channel, and will overhear people in the Pentagon talking about their success with several operatives code-named after various amphibious creatures. A sudden horrible realization will strike you. Either that, or you'll get jam on your shirt.

Aquarius (January 21 - February 18)

Beware of cats, today. (Particularly black and white cats who sit next to you and pretend to be innocent. Those are the worst kind.)

Pisces (February 19 - March 20)

Do not snitch a jelly donut today, when nobody is looking. The chocolate frosted one is much better.

## EDITOR'S REMARK

Yearbook has always been a tough task in the previous years of Westview. Also, this year we have had many problems and we have worked hard as a team to overcome all the problems that came our way. As the editor-in-chief of the yearbook, I would like to thank the staff advisor, Mr. Vu who has worked so hard in helping us to successfully complete the yearbook.

On behalf of the committee, I would also like to thank all the staff of Westview for all their patience and support. Moreover special thanks goes to Ms. Sumner who supported the yearbook in every way. Last but not least I would like to thank all the co-members of the committee for their contribution. All of you have been a great help and it was a great pleasure working with all of you. Thank you guys and gals...

Umm.... What else to write... Yearbook could be this tough to handle was the shocking experience. From the beginning we have had many problems but the best part was taking those challenges and ultimately winning them. Although it was tough to work days and nights and weekends, I enjoyed the time shared with the members and the slow computers. Ops! Sorry MS. Foyle, your computer lab has been a great help to the committee.

Besides the difficulties we have also had times of enjoyment and many laughs. It has been a great pleasure to be the editor-in-chief of the yearbook and working with such a marvelous team. Come on guys, we are done, time to party...
